Flexible Contracts for Special Permit Holders

The Department of Banking and Insurance has become aware that some special permit holders and/or applicants are considering offering Flexible Contracts. These contracts allow the annuitant flexibility in selecting the start date for payment. There are several factors that should be considered before pursuing the offering of Flexible contracts, as outlined below:

- Pursuant to N.J.A.C. 11:4-8.4, "If a holder of a special permit proposes to institute a new form of
 agreement with annuitants, the form shall first be submitted to the Commissioner for his approval before it is put into use." Therefore, any new forms of agreements that would be used to offer Flexible
 Contracts must first be submitted for our review and approval.
- Pursuant to <u>N.J.A.C.</u> 11:4-8.5(c), the annuity rates to be used with new forms of agreement must be submitted along with a demonstration that the rates comply with the requirements of <u>N.J.A.C.</u> 11:4-8.5(a).

The following conditions will be applied if your organization is offering or plans to offer these types of contracts.

- N.J.A.C. 11:4-8.5(d) provides that the Commissioner may waive the requirement for the actuarial opinion. Due to risk factors related to flexible contracts, the Commissioner will not waive the requirement for an actuarial opinion as to the adequacy of reserves on outstanding contracts for those organizations issuing flexible contracts.
- 2. In providing an opinion, the actuary shall
 - address cash flow needs and a matching of assets and liabilities in the segregated account;
 - describe the reserve standards for flexible contracts;
 - advise as to the need for any adjustments in mortality assumptions.
